

RAJAGIRI COLLEGE OF SOCIAL SCIENCES (AUTONOMOUS)

ACTION TAKEN REPORT ON STAKEHOLDER FEED BACK 2020-21

Department of Computer Science

Program me	Stakeholder	Summary of Feedback Received	Action Recommended	Action Taken
MCA	Students	The student feedback recommended that more value-added courses can be added inculcating the Industry needs.	Industry relevant value-added courses can be added.	Data Visualization using Tableau was offered as an elective course and POWER BI is offered.
	Teachers	The teacher's feedback recommended the need for more Industry interactions to enable students to know the work culture and code of conduct in the Industry.	Industrial visits, Internships, and collaborative works with IT firms can be identified and can be provided.	Included internships as mandatory, from a recognized IT Company in the final semester.
	Employers	The employers noticed that it takes time for the students to blend into the work culture. From a company point of view, it's really important that any fresher should be self-motivated, disciplined (or organized at least), and be an effective, proactive communicator. Especially when it's a remote work environment.	Students can be given the opportunity to work in a remote environment.	Made Internships compulsory in the final semester

	Alumni	Need to update the syllabus with emerging technologies	To be taken up for the next syllabus revision	Decided to conduct a study on the existing technologies and the feasibility of adding them in the upcoming syllabus revision.
MSc CS	Students	The student feedback recommended that more value-added courses can be added inculcating the Industry needs.	Industry-relevant value-added courses can be added.	Data Visualization using Tableau was offered as an elective course and POWER BI is offered as an add-on.
	Teachers	The teacher's feedback recommended the need for more Industry interactions to enable students to know the work culture and code of conduct in the Industry.	Industrial visits, Internships, and collaborative works with IT firms can be identified and can be provided.	Included internships as mandatory, from a recognized IT Company in the final semester.
